SUMMARY

I am dedicated to expanding my knowledge and skills in the tech field. My journey has been marked by a strong foundation in web development and a keen interest in data structures and algorithms. Proficient in C++ as my primary language, I also have hands-on experience with React.js, JavaScript, CSS, and HTML. Beyond academics, I nurture my creative side through various hobbies. Playing cricket, editing. I have gained knowledge about Full Stack website development and other than being a student, I'm an employed- an education institution named Study Hub since 2021.
