

Summary

B.Tech Information Technology student at **Kalyani Government Engineering College**, with hands-on experience in **full-stack development and computer vision**. Selected for Smart India Hackathon 2025, with experience building **React/Flask, MERN, and YOLOv8-based real-time monitoring systems**. Seeking software development internships and off-campus opportunities to contribute to impactful projects and grow as a developer.

EDUCATION **East Point School, Icchapur** || 2021-2022

Class -12(CBSE) || Percentage-66%

Kalyani Government Engineering College || 2023-2027

Bachelor of Technology || Information Technology || CGPA-7

PROJECTS [Sustainability for farmers](#) || React.js, Tailwind CSS, Flask, Firebase, Open-Meteo API

- Built a location-aware farming dashboard with a React.js frontend and Flask backend.
- Integrated weather and geolocation APIs to provide 5-day hourly weather forecasts.
- Added soil-moisture visualization and a multi-sensor architecture for monitoring farm conditions

[Employee Management System](#) || React.js, Vite, Context API, React Router, Tailwind CSS, Local Storage

- Developed an employee management system to efficiently manage employee records, tasks, and daily work activities.
- Enabled administrators to add and manage employees, assign tasks, monitor progress, and track task completion.
- Provided employees with a dedicated dashboard to view assigned tasks, update task status, and monitor their work.

[CCTV Surveillance System](#) || Python, OpenCV, YOLOv8

- Developed an AI-powered CCTV monitoring system for real-time person and safety-compliance detection.
 - Implemented restricted-zone and helmet detection using YOLOv8 and OpenCV, with configurable zones/camera IDs and alert logging.
-

Technical Skills

- Languages: JavaScript, Python, Java, C++
- Database - MySQL, MongoDB, Firebase
- Frameworks/ Libraries - React.js, Node.js, Flask, Express.js, FastAPI, Email.js
- Backend: Node.js, Express.js, Flask, FastAPI
- AI/ML & Computer Vision: NumPy, Pandas, Tesseract OCR, YOLOv8, OpenCV
